

Print Help

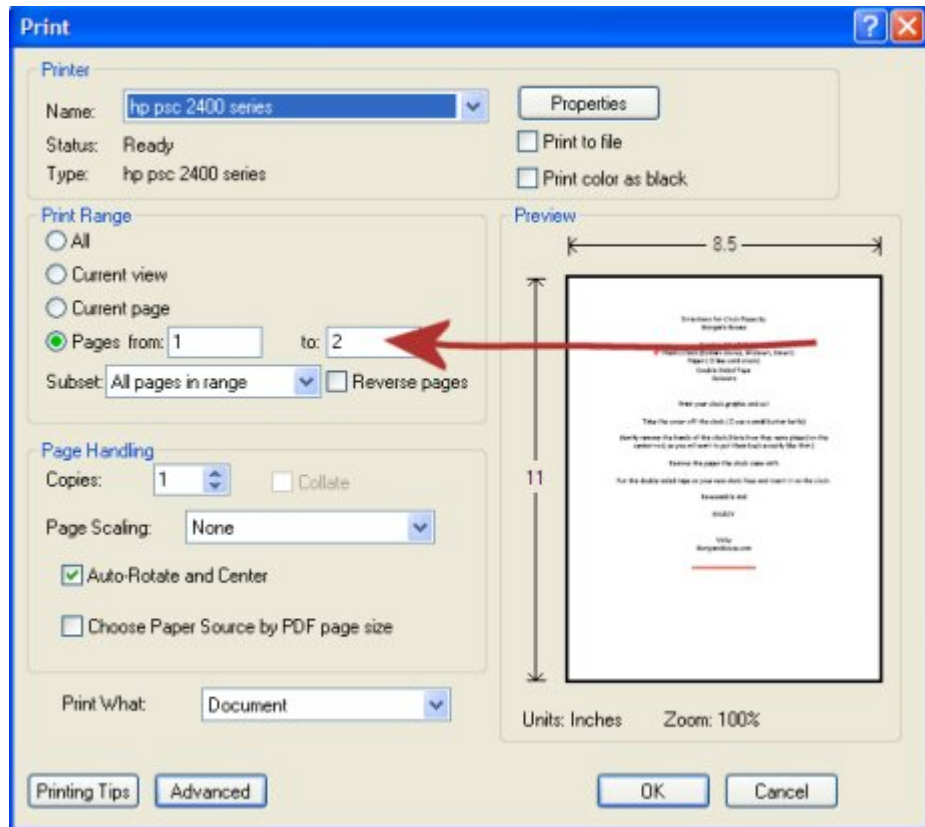

If you want to print only certain pages (and not all of the pages) in a pdf file, follow these instructions:

Go To File
Print

Your dialog box may be different than mine, however, just look for the Print command under file.

Tell the printer that you only want to print certain pages:

“Tick” off the Pages from choice... and let it know which pages you want to print. If you just want to print page 2, you would say: Pages from: 2 to 2.

I know you will do
GREAT
today

Miss You

I am so
proud of
YOU !!!

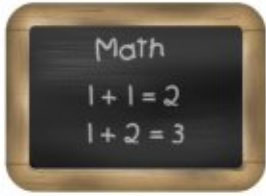

hello

I
Love
You

Good Luck

I know you will do GREAT

You looked
Great
today!!

HOPE YOU ARE
HAVING A GREAT
DAY

Thinking of You!!!

Miss You!!!
